

Erratum for

Di Lorenzo, P., Chen, J.-Y., and Victor, J.D. (2009) Quality time: Representation of a multidimensional sensory domain through temporal coding. *J. Neurosci.* 29, 9227-9238.

As a result of a proofreading error, the sign of a quantity was inverted. The equation, in the last paragraph of Methods (page 9230, column 1), should read:

$$r = (-3\sqrt{7} - 7\sqrt{3})/84 \approx -0.2388.$$

This error has no effect on the findings of the paper, as the correct value was used in all of the calculations.
